-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-18 and 31-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. In claims 1 and 11, the Applicant is required to clarify to what the claims are intended to be drawn to, i.e., either the locking component alone or the combination of the locking component and the flexible body member. The Applicant sets forth the combination of the locking component and the flexible body member when describing the configuration of the flexible body member, which is inconsistent with preambles, that set forth the subcombination of the locking component. Applicant is required to make the language of the claims consistent with the intent of the claims. It should also be noted that in considering the claims on the merits, the Examiner will consider the claims as drawn to the combination.

4. Claim 37 recites the limitation "the ring member" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3734

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 2, 8, 10-12, 17-19, 22-24, 27, 28, and 31 are rejected under 35

U.S.C. 102(b) as being anticipated by Mische et al. 5490859.

7. Mische et al. teaches an apparatus for embolic protection, comprising: a guide wire having a flexible body member; a filter assembly; a guide wire locking component disposed on one of the ends of the filter assembly, the guide wire locking component including a longitudinal opening extending into the body member; wherein the flexible body member is rotatable attached to the guide wire; wherein the flexible body member is a helical coil disposed at the distal end of the guide wire; and a delivery sheath.

Allowable Subject Matter

8. Claims 20, 21, 25, 26, 29, and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
